Economy-Wide Emissions: United States

The chart displays the 'Indice de la production industrielle' (Industrial Production Index) from 2008 to 2035. The historical data (2008-2020) is shown as a dark grey line, which generally trends downwards with some fluctuations. A thick black line represents the trend for the historical period. From 2020 onwards, the chart shows several projection scenarios: a grey line representing a continuation of the historical trend, a blue line representing a scenario with a sharp initial drop followed by a recovery, and a red line representing a scenario with a sharp initial drop followed by a recovery. The x-axis is labeled with years from 2010 to 2030, and the y-axis represents the index value.
